

# ENERGY WISE

for your Home

Save up to \$1,000 on a new air source heat pump.

## 2025 RESIDENTIAL QUALITY INSTALLATION (QI) PROGRAM

### RESIDENTIAL ASHP REBATE APPLICATION

#### Save up to \$1,000

The 2025 air source heat pump rebate program focuses on key areas of the installation process to help ensure our members get the maximum benefit from their new air source heat pump.

- Proper sizing
- Airflow and refrigerant charge
- Duct sealing (exposed ducts only)

Unit Size or Description	Rebate
Ductless / Mini-Split 17.2 SEER2 11.7 EER2 8.5 HSPF2	\$500
Ducted 15.2 SEER2 10.6 EER2 8.1 HSPF2	\$630
Ducted 17.2 SEER2 10.6 EER2 8.1 HSPF2	\$700
Ducted 19.0 SEER2 10.6 EER2 8.1 HSPF2	\$850
Ducted Cold Climate (Low Ambient) Air Source Heat Pump*	\$1,000

\*The cold climate air source heat pump must have a minimum qualifying efficiency of 15.2 SEER2, 10.6 EER2, 8.1 HSPF2, low temp heating efficiency of COP  $\geq 1.75$  at 5° and the heating capacity at 5°F must be at least 70% of the 47°F rated heating capacity. Auxiliary heat switchover set point degrees must be 20°F or less.

#### Rebate summary

- Air source heat pump must be installed within the Connexus Energy electrical service area.
- Installing contractor must be registered through hvacrednet or natex.org.
- Applications for rebates must be submitted by a qualified installer.
- Qualifying systems must be ENERGY STAR rated or listed on the Air Conditioning, Heating and Refrigeration Institute (AHRI) directory.
- At a minimum, the condenser and coil must be replaced.
- Offer valid January 1, 2025 through December 31, 2025, or while funds last.
