

October is **NATIONAL CO-OP MONTH**

What does being part of a cooperative mean to you?

→ You have a voice

Connexus is owned by you – our members. As a member-owner, you elect our board of directors each year. These directors guide operations and strategy, and they ensure financial oversight to help keep our cooperative reliable and our rates affordable.

→ You earn Cash Back credits

Unique to electric cooperatives, any profits we make are returned to the cooperative's bottom line, which helps maintain efficient operations and funds our Cash Back program, rewarding you based on your energy usage.

→ We're supporting your community

Connexus proudly supports local nonprofits that work to improve the communities where our members live.

→ We're local

Many Connexus employees are also members of the communities we serve, working and living alongside you.

**One of the greatest benefits of the cooperative business model is that
we put the needs of our members first!**

Visit our website to learn more about the annual meeting and nomination process.
